Our Key Services

Turboexchange Australia delivers new, exchange, and remanufactured turbocharger solutions to the mining, heavy transport, marine, and rail sectors across Australia.

Built to perform in WA's demanding industrial environments, our comprehensive turbo solutions include:

Turbocharger Exchange

Our turbocharger exchange service allows clients to replace worn or damaged units with fully remanufactured, OEM-spec turbos from our inventory. Each exchange unit is precision-tested and built for reliability, reducing equipment downtime and keeping fleets operational with minimal delay.

Remanufactured Turbos

We provide remanufactured turbochargers, restored to OEM standards using advanced diagnostics and precision processes. Each unit is fully disassembled, cleaned, inspected, balanced, and rebuilt for peak performance and long service life. A cost-effective, eco-friendly alternative to new—backed by a full OEM-equivalent warranty.

New Sales & Spare Parts – Garrett

As a Garrett Authorised Centre, we support the reach and complexity of the Garrett product line and supply true Garrett products. We offer a range of new and remanufactured turbochargers, along with spare parts for major makes across the mining, heavy transport, marine, and rail industries.

What sets us apart

Extensive Industry Experience

Over 50 years of combined expertise in turbocharger sales and remanufacturing.

Garrett Authorised Centre

By contacting a GAC, you know you are getting first-fit, true Garrett product direct from the manufacturer.

Majority Indigenous Owned

51% Aboriginal-owned, supporting supplier diversity and Indigenous economic participation.

Sustainability-Driven Approach

Committed to circular economy principles that reduce waste and extend product life cycles.

Aboriginal Employment & Development

Focused on creating sustainable employment pathways and capacity-building for Aboriginal people.

Outstanding Customer Service

A customer driven business which prides itself on professional service, quality and price.

Precision. Reliability. Industry-Ready.

Our proven expertise in turbocharger technology, economic development, Aboriginal engagement, and government procurement delivers high quality solutions.

A WA based business founded on technical excellence, cultural respect, and operational integrity, we actively support environmental sustainability by embedding remanufacturing within a circular economy model.

By combining strong industry capability with a genuine commitment to inclusion and sustainability, Turboexchange Australia is setting a new benchmark for performance, partnership, and purpose in the turbocharger sector.

“We’re committed to delivering safe, affordable and reliable services that meet the demands of our clients”

Bryan Hunter,
Managing Director

“We are dedicated to creating sustainable employment and economic opportunities for Aboriginal people”

Marno Henning,
Director

“By reducing waste, minimising emissions, and extending the life cycle of essential components, we optimise your productivity”

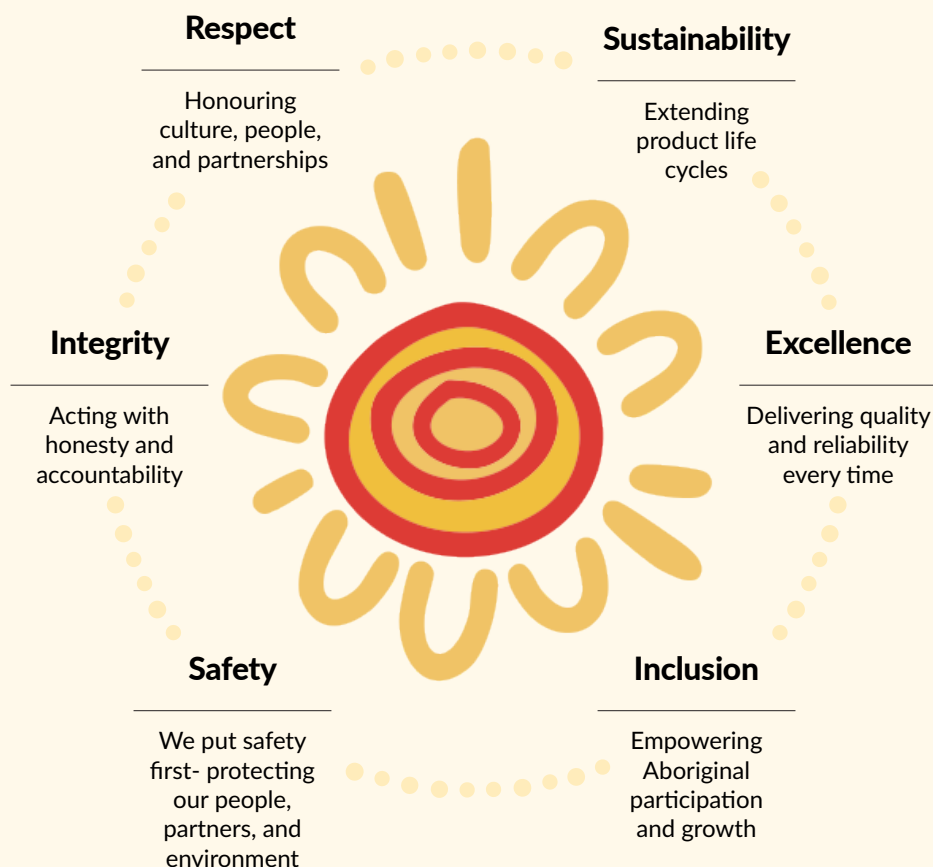

Richard Bennett,
Director

Built on values. Driven by purpose.

Our Values

Our Vision

To be a successful and respected Aboriginal-led enterprise delivering reliable turbocharger solutions, creating opportunities for Aboriginal people, and supporting a cleaner future through sustainable practices.

Meet the Team

Bryan Hunter

Managing Director

An Aboriginal man from the Kulin Nation, Bryan is a highly experienced and respected professional with over 40 years of combined expertise across the engineering industry and the public sector. After 29 years of dedicated service within the Australian Government—where he advanced Aboriginal employment, economic development, and government procurement—Bryan now leads his turbocharger business with a unique blend of technical expertise, cultural insight, and strategic leadership. As Managing Director, he drives innovation, quality service, and sustainable growth, supporting both industry excellence and Aboriginal economic advancement.

Richard Bennett

Director

Richard is a seasoned Director and accomplished entrepreneur with over 39 years of experience in turbocharger remanufacturing and sales. A Qualified Aircraft Technician by trade, he has founded and led multiple successful businesses known for their quality workmanship, innovation, and operational excellence. His companies have served as authorised service agents for leading global manufacturers including Bosch, Denso, Lucas/Delfi, and Garrett, and as an official distributor for Melett. Richard combines deep technical expertise with strong commercial leadership and is deeply committed to Aboriginal economic advancement and sustainable industry growth.

Marno Henning

Director

Marno is a qualified Diesel Fuel Injection Technician with over 15 years in the turbocharger industry. Known for his technical expertise and leadership, Marno has led successful operations in turbo diagnostics, servicing, and remanufacturing. His commitment to quality, reliability, and strong customer relationships continues to drive business growth and innovation.
